## EDUCATION

### Bachelor of Technology (B.Tech):

**KL Deemed to be University** : 2023–2027

**CGPA:** 8.81/10

**Course Work:** Data Structures, Machine Learning, Programming, Database Systems, Deep Learning, Full Stack Development, Networking, CI/CD

**Specilization:** Artificial Intelligence for Visual Intelligence

### 12th / Intermediate:

**Sri Sarada Junior College** : 2021–2023

**Percentage:** 84.8%

**Stream:** MPC (Math, Physics, Chemistry)

## SKILLS

**Programming Languages:** C, Java, Python

**Web Development / Full-Stack:** HTML, CSS, JavaScript, React

**Data Science & Analytics:** Pandas, NumPy, Matplotlib, SQL

**Machine Learning / Deep Learning:** Scikit-Learn, TensorFlow, PyTorch, Keras

**Tools / Others:** Git, PyCharm, VS Code, Excel, Cisco Packet Tracer

## REFERENCES

Available on request

## INTERESTS

Music, Photo & Video Editing, Content Creation, Nature Photography

# Shaik Anas Basha

## B.TECH COMPUTER SCIENCE STUDENT

### PROFILE

I'm a B.Tech Computer Science student interested in data science, analytics, and full-stack development. I like working with data, building web apps, and experimenting with deep learning models. Looking for an opportunity to learn, contribute, and have fun while building cool projects.

### EXPERIENCE

**Cisco Internship – Networking** **May 2024 – Jul 2024**

#### Intern (Virtual)

- Learned networking protocols, configurations, and basic troubleshooting.
- Hands-on exposure to routers, switches, and network management tools.
- Gained practical understanding of enterprise networking setups.

**Kodacy – AIML Internship** **Aug 2025 (30 days)**

#### AI Intern (Virtual)

- Built and experimented with AI/ML models on real datasets.
- Assisted in data preprocessing, feature engineering, and model evaluation.
- Gained hands-on experience applying machine learning in practical projects.

### PROJECTS

**Weather Application (Full-Stack Web App)** **2025–2026**

Spring Boot, React, Git Actions | 3rd Year B.Tech (2025–2026)

- Built a web app to show real-time weather information.
- Connected backend APIs with a React frontend for a smooth user experience.
- Deployed the app using Git Actions, focusing on responsive and interactive design.

### GLOBAL CERTIFICATIONS

**Oracle Cloud Infrastructure 2025 Certified Generative AI Professional**

- Demonstrated expertise in building, deploying, and optimizing Generative AI models using OCI services.
- Skilled in applying LLMs, prompt engineering, and secure AI practices for real-world applications.
